Dear Mr. Morse:

We have read in detail the extraordinary effort you take in determining the ranks accorded to two institutions: Law Schools and Schools of Public Affairs.

We would like to call to your attention that in this information based society both of the aforementioned institutions are strengthened when they have programs which are combined into one uniform program which recognizes explicitly the benefits of a multidisciplinary education.

Consequently we recommend that you recognize the benefits of a multidisciplinary education in the rankings accorded to those institutions which have implemented a multidisciplinary approach in their respective curricula as described in the attached document.

Respectfully
